PERMANENT ADDRESS

3 El Nokrashi st. Shahr El Asal El Bitash EL Agamy
ALexandria, Egypt

EDUCATION

Faculty of Engineering, Alexandria University

Major : Computer and systems engineering

Degree : Expecting bachelors degree in July 2016

Garde : Cumulative Grade 3.55

Rate : **57th** in 2012, **42th** in 2013, and **13th** in 2014

TECHNICAL

- **Programming languages :** Java, C++/C, Python
- **Web development :** PHP, SQL, JavaScript, HTML, CSS
- **Mobile Application Development :** Android

EXPERIENCE

ACM Algorithms Training : 3 Months Summer Algorithms training during 2013 summer.

ACM Andriod Training : 2 Months Summer Android training during 2013 summer.

SUMED company Training : 1 Month training on FOCUS Databases during 2014 summer.

SELECTED PROJECTS

- **Circus of Trolls 2D Game Java** An Object Oriented Programming Game applying Design Patterns with many features like dynamic loading and saving.
- **SIC/XE Assembler C++** A Two pass assembler that converts SIC/XE instructions into object program.
- **Solving Systems of linear equations MATLAB** An application that solves systems of linear equations using several numerical methods such as the Gaussian elimination and LU decomposition.
- **Simple Shell C** A Simple shell that parse UNIX shell commands and do system calls.
- **PintOS C** simple instructional operating system framework for the 80x86 architecture. The software supports kernel threads, loading and running user programs.
- **For more projects** <https://github.com/Besoz?tab=repositories>

ACTIVITIES

- Participated in **AlexAndTantaCPC 2013**
- Participated in **AlecCPC 2013**
- Participated in **AlexCPC 2014**
